VIRULENT CANCER CURED.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c. at all druggists.

The Court of Appeals adjourned last Saturday for the Summer vacation. On account of the early adjournment of the court and the lateness of the arguments in the Howard case the decision in this case will not be rendered at this term, but will go over to the autumn term, as does the Caleb Powers case.

The Court of Appeals affirmed the judgment of the Wayne Circuit Court in the case of Sam Hardin vs. W. R. Cress, etc. Cress was awarded the certificate of election as county judge of Wayne in 1901. Hardin, his opponent, contested, alleging irregularities in the Mill Springs precinct. After the votes had been counted and certified, the election officers failed to preserve them and they were burned. This was the ground of the contest. There was no charge of fraud. The lower court dismissed the petition, and this was sustained.

In reply, Col. Colson said: "Now, Boreing talks a great deal about his influence at the White House, but I can prove to you he hasn't got as much standing

OIL NOTES

A Russian oil well in the Baku Peninsula, says United States Consul James C. Chambers, of Batum, in a recent report, produced 180,000 barrels per day for the first two or three days, and continued to flow until it produced over 2,000,000 barrels. This well was 1,813 feet, and finished with a fourteen inch pipe. While such a well would mean a fortune in a few days in Texas, Mr. Chambers says that the owner of this well that produced 2,000,000 barrels in thirty days lost money at it. But the well was on government property, and subject to a tax of 5 kopeks per poood, or 2 1/2 cents on 36,112 pounds; and further, a high wind carried the oil spray over a neighboring village, and the well owner had to pay for repainting about all the houses in the village. The big well was stopped by striking another in the near neighborhood at the same depth, which produced 1,000,000 barrels in December, and was still flowing at the rate of 25,000 barrels per day when Mr. Chambers wrote to the State Department.

Moore, Agent Illinois Central Railway, Milan, Tenn., states: I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and \$1.00. Sold by all druggists.

DEMOCRATIC TICKET.

FOR CONGRESS.

HON. GEORGE G. GILBERT,
OF SHELBY.

H. H. HENNINGER,

Of Wayne county is a candidate for State
Treasurer, subject to the action of the
Democratic party.

THE Hon. G. G. Gilbert was declared the Congressional nominee for this district by the democratic committee which met at Lawrenceburg last Saturday. For the last four years, Mr. Gilbert has faithfully and ably represented this district and his services have been fully appreciated by his constituents. That he will be given opposition by the republicans, is almost certain, but it will all be done for the sake of appearance and not because of any hope of victory at the polls in next November.

If some of our business men would stop for a minute and look at some of the improvements in front of their places of business, we believe they will see the importance of making a few improvements. It is a shame and a disgrace for the sidewalks and streets to be allowed to get in such a terrible condition. How can any town hope to prosper, when its citizens have no enterprise or get-up about them.

Ex-Gov. Bradley, the Kentucky dictator, has recently furnished Collector Craft with a list of sixteen names of persons, whom he desired to be looked after in the distribution of the spoils, but being passed unnoticed by the Collector, there is trouble in the land and the Governor is wanting to buy a kicking machine for ever giving his indorsement for Mr. Craft.

THE Somerset Journal pays Judge T. Z. Morrow the following deserving compliment: It would be a strange sort of people who did not give the judge a warm corner in their hearts after a life of active, honorable and honored service in their behalf. Over in this neck of the district the "people" want him for their judge about as bad as he is known to want a grandson.

THE Hon. George G. Gilbert has faithfully and brilliantly served the Eighth district and the entire Democratic party during two terms in Congress, and his nomination without opposition for a third term is both a generous and a just recognition of true worth.—Times.

THE counties of Jefferson, Kenton, Fayette, Campbell, Bourbon and Daviess pay nearly one half of the State taxes. The total value of property subject to taxation in Kentucky is \$598,829,633. The county of Jefferson pays nearly one fourth of the taxes of the State.

THE beet sugar men are not willing for the United States to lend a helping hand to Cuba in the way of a reduction on imports and exports to and from that country, as was so earnestly requested by President Palma and the Cuban government. A deaf ear is all they get.

SENATOR HANNA, in reply to a letter from Col. Cutler Smith, of Ala., insists that he is not to be a candidate in any sense of the word for the Presidency in 1904. Well he may not be, if he can keep control as well without it.

Since Ex-Gov. Bradley has come to the conclusion that Collector Croft is not his kind of a man, he has been able to find in former Collector Sapp, greater merit than he ever thought him to possess.

Louisville, Ky., June 16, 1902.

To the Editor:—

Dear Sir: As you will readily recall, the last General Assembly, almost by unanimous vote, decided to put Kentucky in line with her progressive sister States of Indiana, Ohio, Illinois and others, by taking steps to permanently establish a State Fair, for which an annual appropriation of \$15,000 for premiums was made. In agriculture and especially in live stock Kentucky has occupied a conspicuous place, but the legislature recognized that something must be done if she desired to retain her prestige, especially in the live stock market. The great State Fairs just north of us have brought such vast benefits to the States in which they are held that their Legislatures have appropriated from \$50,000 to \$150,000 for such purposes. Through the Kentucky appropriation is much smaller, the State's natural advantages are such that by means of these newly instituted State Fairs she will be able to retain her prestige, provided the proper support is given by her citizens. The Legislature directed that the State Fair would be held under the auspices of the Kentucky Live Stock Breeders' Association, whose directors reside in every part of the State, and they are in absolute control. Under the provisions of the Legislative Act all the profits of the State Fair are to accrue to a fund for future State Fair purposes. Therefore, in the strictest sense of the word it is an enter prize for the benefit of all the people, and especially the farmers and live stock men. While Louisville has been selected as the place for holding the Fair this year, it will result in far greater benefit to all the rest of the State than to the metropolis. It is estimated that fully 95 per cent of all the premiums money, amounting to many thousands of dollars, in addition to the State's \$15,000 contribution, is bound to go to farmers and stock men who live out in the State. But greatest benefit of all will be from the new life and impetus which will be given to the business of farming and live stock breeding in Kentucky.

The citizens of Louisville, appreciating more and more every year dependence on the prosperity of the 118 Counties outside of Jefferson, have subscribed a guarantee fund of over \$10,000 to be used if necessary to help defray the expenses of this new State enterprise. The Kentucky Live Stock Breeders' Association directors are managing the Fair without financial reward other than that which must come to one and all alike from the new life which will be put into farming pursuits.

Trouble is threatened among the Apache Indians in Arizona.

The quarrymen at Langford struck last Thursday for higher wages. D. L. Carter, manager for the Kentucky Freestone Co. was here Tuesday and claims the men came out without any notice or demand having been made upon the company. He says his company told the men Monday that they could resume work on Tuesday morning at the old wages and the company would take up their demand for advance demanded. The men refused to go to work. Mr. Carter was employing men here Tuesday to take the strikers' places. It is to be regretted that the men and company could not agree upon some terms as the quarrymen are said to be a good lot of workmen, some of them having worked in the quarries for several years.

A number of Rockcastle boys are working on section at Hazel Patch under that excellent foreman Ap Taylor, a Rockcastle man. He gets as much or more work out of a man than many other foremen without any bullying tactics. He was raised on the track, knows what a man can do, and how to get him to do it without mistreating him.

The editor blew a horn in the Mt. Vernon Band for a long time and has blown for the county and its citizens, through this paper, during the three years, he thinks a few trumpet blasts, in this issue, about his plant and paper is not inappropriate. Send or bring in your job work, by mail, hand or telephone. We pay the freight both ways, gwine and a'comin.

The old county well, on street corner, just west of court house, which has not been used for past thirty years is being deepened. All the curbing has been removed and blasting has been going on for a week or more. Monday afternoon, when the workmen were at the top taking a fresh breath of air, something like a ton of stone and dirt fell in from one side. The men resumed operations as though nothing had happened.

Sometime last year Charles K. Lewis, of this county, who has made three trips to Central America, and spent seven years in the forests of that country superintending a gang of men in lumbering in the rosewood and mahogany forests, shipped several logs of these valuable woods to this county which he had sawn up at the mill at Quail. John Proctor, who is a natural mechanic, machinist, cabinet workman and all around genius, made a hundred fine walking canes and various pieces of fine furniture which Mr. Lewis distributed among his friends. Mr. Proctor is now engaged in making a suite of furniture which will be the finest ever made in our county.

"Monk" Taylor who has a garden on the Walk Newcomb lot, near depot. Let everyone having a residence or business house on Main street clear off the weeds in front of their houses. It will take a very small space of time to do so. The improvement will be great and add much to the looks, besides it will lend the impression to visitors, that we cut weeds at least once a year and other visitors need have no fear of getting lost in the weeds on Main street at least.

Henry Catron bought from Henry Wood a black saddle mare at \$100.

Anderson Chenault has bought from Ray Moss, for July delivery, 16 head of 1,250 pound cattle at \$5.15. —Mt. Sterling Gazette.

It should be remembered that an orchard, as surely as a cornfield, consumes the fertility of the soil, and that to starve the soil is as sure to prove unprofitable in the one case as in the other.

Chickens from the time they are two weeks old should be made to hustle during nice weather. Those that sit around and wait to be fed soon droop and die, while those that are kept busy, either by the hen or by scratching in the litter of brooders, look thrifty and grow fast.

Of all grains, as regular food for poultry, we place oats first—even chicks no more than six weeks old eat oats, and thrive on it. Rolled oats make one of the best foods for very young chicks. So that there is no time during the age of a fowl when oats are not good and economical food.

At the Bigler sale of Shorthorns at Hartworth, Iowa, last week, three Wild Eyes brought an average of over \$1,500. One of the Wild Eyes, 61st, sold for \$3,040. O. S. Johnson, of this county, has a bull of exactly the same breeding as this cow, being by the same sire and their dams being sisters.

Clover hay harvest will begin this week and was never better in this "neck of the woods." Wheat harvest will be on hand in ten days, and the crop is very light. Rye will follow wheat in a few days, and the crop is phenomenal, and later will come the oat crop, and the indications at this time are that it will be a record breaker.—Falmouth Pendletonian.

LOST STRAYED OR STOLEN.—A bore hog, mostly black, some white spots about head, ears droop at point, unmarked, will weigh about 80 or 90 pounds. Good stock and has been gone about two weeks. A liberal reward will be paid for the return of same or any information leading to the recovery.

TAKEN UP.—I have in my possession at my home 4 miles west of Brodhead, the farm known as the Smith Adams' farm, a black bore hog, with smooth crap off of each ear and split in the right; will weigh 125 pounds; has been at my place about four months.
